

Oregon families have been asking  
for education options.

**IT'S TIME.**

**Let Them  
Learn Oregon**

You have an opportunity to put...

## **Open Enrollment + School Choice for Oregon**

...on the **November 2024 ballot!**

It's time to...

- Empower parents to choose the educational setting best suited to the needs of their child
- Provide all students with a quality education regardless of zip code, income level, or learning style
- Allow education dollars to follow students to their preferred educational setting
- Protect the autonomy and uniqueness of private schools and homeschools from government control

What can you do?

- **Sign** our two petitions
- **Donate** money to help us bring education options to Oregon K-12 students
- **Spread the word** about this historic School Choice movement
- **Join** with us to volunteer your time and talents

# THE FACTS!

## **What is the Open Enrollment Measure?**

Say goodbye to education barriers based on where the student lives! This measure will bring open enrollment back to Oregon and give public school students the opportunity to attend any public school or any public charter school that has available space.

## **What is the School Choice Measure?**

Say goodbye to education discrimination that has prevented education funding from benefitting ALL Oregon K-12 students! This measure will create a School Choice Account that allows parents to spend their education dollars on nonpublic educational options.

## **Who will qualify for a School Choice Account?**

Any Oregon resident student who is eligible for enrollment or is already enrolled in an Oregon K-12 public school may choose to opt out of public school and request a School Choice Account.

## **How much will be transferred to the School Choice Account?**

At minimum, \$7,600 per student, per year will be transferred into an Educational Savings Account (ESA), which will be administered by a nonprofit chosen by the family.

Once deposited into the School Choice Account, the funds will **NO LONGER** be public funds – severing the tie between the funds and the State.
